Frequently Asked Questions (FAQs) for Managing Influenza A(H1N1) during examination period

1. Can students take the examination if they have flu-like symptoms?

   For students with flu-like symptoms, their body temperature will be measured. If they have a body temperature $\geq 38^\circ C$ and runny nose, they will NOT be allowed to take the examination unless certified free from Influenza A or A(H1N1).

   Those certified fit to take examination will be allowed to do so in a separate quarantine room (different from the normal quarantine room). They will be required to wear face mask.

2. If students are suspected or confirmed with Influenza A(H1N1), can they take their examinations?

   Students who are suspected or confirmed with Influenza A(H1N1) will NOT be allowed to take examinations as they are to be in quarantine due to the highly contagious nature of the virus.

3. Will there be a replacement examination for students who miss the examination due to suspected or confirmed with Influenza A(H1N1)?

   The students will take the examination in the next available sitting.

4. What are the precautionary measures in place for students taking the examination in the separate quarantine room?

   Both Invigilators and students will be required to wear face mask. The room will be sanitised after each examination session.

5. What happens to the examination schedule if the College is required to close?

   Students will be notified through the College notice board and website (www.tarc.edu.my) on the new examination schedule affected by the closure.
