Introduction to Blockchain Application Development

About us

Who we are

The Centre for Continuing and Professional Education (CPE) was established in 1999 to provide continuing professional education and lifelong learning opportunities for University's staff, students, alumni and the public. As part of TAR UMT's commitment to continuing education and lifelong learning, CPE is entrusted with designing, developing and delivering various activities, workshops and programmes to meet the diverse learning needs of multiple parties.

Date and Time

13-15 June 2023 Tuesday to Thursday 9 AM to 5 PM

About This Training

Blockchain is a decentralized platform that provides immutability, transparency, security, efficiency and data validity. The use of Blockchain technology is not limited to cryptocurrencies such as bitcoin, Blockchain technology is likely to bring transformative and dramatic changes to various industries amidst digital transformation. This workshop will introduce Blockchain, its technical fundamentals, Blockchain application development using some prominent Blockchain platforms and insights into some potential use cases related to digital transformation in general.
