

## **About the Seminar:**

When was your last time that you picked up a new skill?

Today, everyone is carrying a mobile phone with super capable camera. But not everyone knows how to make the fullest out of it. Being able to communicate with video has become a valuable skill set in today's context.

At the end of the seminar, participants will be able to:

- i. Apply new skills in shooting and editing by using mobile phone.
- ii. Use skills to grow business, branding and other purposes.

## **Registration:**

Registration Form: <https://forms.gle/htPWGYxwJR2tVrBY8>

## **Speaker:**

Mr Kelvin Chong

The Founder of Mobile Filming School, Mr Kelvin Chong greatly exercises both the left and right side of his brain (the logic and the art).

The left side of his brain stems from his background in IT Network Engineering and 15 years of working experience in business development, marketing and sales in the corporate world.

The right side of his brain contributes to his skills in photography and videography. He was an owner of wedding bridal house in PJ SS2. He is also the founder of AstimaPhotography and TheSlowMedia.com.

Kelvin is faithfully heading ONE ETC Production specializing in business strategy and growth. He works closely with clients to achieve their business goals.
