About the Programme:

Malaysia is the third largest economy in Southeast Asia where economically stable with good infrastructure and a standard of living. Due to its location in the region, excellent communications and technology infrastructure, and the widespread use of English language, the country is home to many local, international and multi-national organisations. It provides a safe and friendly opportunity to experience working within a multi-racial, multi-religious and ethnically diverse population.

This programme gives a unique opportunity for students to visit some of Malaysia's most respected organisations and is designed to enhance students' professional development in a global setting. Also provides the great opportunity for participants to learn about career requirement and work environment through a visit to the organisations in Malaysia.

Course Objectives:

- ❖ Gain valuable business knowledge
- ❖ Get a better understanding on work environment and culture of company in Malaysia
