

Dr Arun Sukumar

Senior Research Fellow

International Centre for Transformational Entrepreneurship (ICTE)

Faculty of Business and Law

Coventry University, UK

Topic: Transformational Entrepreneurship

Arun is an active researcher and his principal research interests are in the field of technology management especially, in understanding transformation achieved through technology based entrepreneurial activities. Additionally, he is also interested in strategic entrepreneurship, with a focus on technology and web based innovations. He's been published in national and international journals and has authored books and book chapters. He has international experience as a PhD examiner with examinations in India, Middle East and UK and experience of PhD s completions and is seeking applications for doctoral candidates in the areas of digital entrepreneurship, Innovation and Small Business Management.

Arun is a reviewer for journals, including Journal for Entrepreneurial behaviour and Research and has organised conferences and workshops on entrepreneurship and digital enterprises. Prior to joining Coventry, he worked for five years for the Sheffield Business School at Sheffield Hallam University where he taught numerous UG and PG classes.
