Topic: Government Policies to Promote Entrepreneurship Education in Thailand

Dr. Mullika is a lecturer at Suranaree University of Technology (Thailand) and an InfoDev's certified trainer to deliver an incubator manager training program. As a lecturer, she teaches courses related to entrepreneurship and human resource development. Dr. Mullika has several years of experience in training and consulting in area of entrepreneurship development, leadership development, team building, human relation in the workplace, strategic planning, and managing business growth. She also has 6 years' experience as incubator manager at Suranaree University of Technology Business Incubator (SUTBI), IP Management Office, and Science Park. As a manager of SUTBI, she is responsible for planning, managing day to day operation, fund raising, and coaching the clients.

Dr. Mullika had developed and delivered a very successful training program aimed at developing innovative capability of the woman entrepreneurs in The People Republic of Laos, Vietnam, Cambodia, the Caribbean, and Nepal. Currently, Dr. Mullika is the program coordinator for a very innovative master program, Master of Management in Innopreneurship and Business Design which was developed with the government support. She also founded and currently manage the flagship project, the Student Entrepreneurship Development Academy (SEDA), to promote and support the development of entrepreneurship within the university. Her entrepreneurship development model has been transferred and adopted by many universities in Thailand. Dr. Mullika has a Ph.D. in Human Resource Development from University of Minnesota (USA.), and MBA. In Human Resource Management.
